NYCE Participants

SUBJECT:

Beware of Unauthorized E-mails From NYCE.

CLIENT ACTION**NEEDED:**

Please notify your cardholders.

Beware of Unauthorized E-mails From NYCE

It has come to our attention that some Participants and cardholders have received fraudulent e-mails that appeared to have come from NYCE with the heading "Your NYCE ATM/Debit Card has been deactivated." The e-mail contains a link taking readers to a site that resembles the NYCE website. Please be advised that these e-mails are not being sent by NYCE and that NYCE's website is not contained within the e-mail. To ensure proper awareness and security for all NYCE Corporation constituents, please be aware of the following:

- NYCE Corporation WILL NOT:
 - Initiate communication directly with cardholders regarding any account/personal information.
 - Automatically activate or deactivate a Debit Card held by an end-user
Note: NYCE is not a Card Issuer, and therefore does not issue cards to individuals.
 - Request personal information (such as card numbers, PIN numbers, etc.) via the Internet.

If your employees or cardholders receive an e-mail of this nature, please instruct them to immediately delete the e-mail and not provide any information. Further, we ask that you please make sure cardholders are aware of phishing scams, and other attempts to collect personal information via the Internet.

Questions?

If you have questions, please contact your NYCE Client Services Representative at 888-456-2844.
